Education: University of Maryland, Baltimore County
Bachelor of Science in Computer Science, AI Track

Baltimore, MD
08/2022- 05/2026

Jobs & Internships

Coding/Tech Instructor 05/2025 – 08/2025
- Black Rocket at Anne Arundel Community College

- **Programming & Web Development Instruction:** Guided students in *Python, Java, HTML*, and *Lua* through hands-on projects, focused on web and game development, strengthening analytical and problem-solving skills
- **Robotics & Interactive Development:** Introduced students to programming with mBot robots by teaching *sensor integration, movement logic*, and foundational robotics concept through hands-on projects and activities
- **Team Collaboration & Technical Leadership:** Coordinated weekly learning plans with instructors to deliver curriculum designed to improve student engagement and understanding of programming concepts
- **Technical Support & Operations:** Provided *hardware/software troubleshooting* to ensure *seamless classroom operations* and uninterrupted instruction across all activities.

Projects

UMBC FAQ Triage (Web App, Team Project) 09/2025 – 12/2025

- Developed a full-stack virtual triage system with a responsive *web UI, backend APIs, and a searchable FAQ database* to streamline handling of high-volume user inquiries.

- Implemented an *AI-powered chatbot* with query classification, escalation logic, and admin tools, and deployed the application to a cloud environment for scalable, reliable access.

AI Drug Classification (Web App) 05/2026 – 06/2026

- Developed a *machine learning-powered* application that predicts drug classification from patient attributes
- Automated *model training, testing, reporting, and deployment* using GitHub Actions and CI/CD workflows, ensuring continuous delivery of application updates

Personal Task Manager (Web App) 11/2024 – 12/2024

- Built a responsive web application using *Node.js, JavaScript, CSS*, and *HTML* for organizational purposes.
- Enabled users to add, edit, and track task completion using *PostgreSQL* and *JavaScript* for dynamic storage information.

Skills

Programming Languages: Python, C++, Java/JS, HTML/CSS

Software: Object-Oriented Programming (OOP), Memory Management & Linked Lists, Debugging, Full Stack Development, AI Prompt Engineering, PostgreSQL
